

Amendments to the Claims:

Claims 1-6 (canceled)

7. (New) A cosmetic or dermatological body cleaning preparation with a reduced tendency toward damaging skin-intrinsic enzymes, comprising a surfactant system of:

- (1) alkyl ether sulfate,
- (2) alkylamidopropylbetaine, and
- (3) at least one additional surfactant selected from the group consisting of alkyl polyglucosides, ethoxylated triglycerides and salts of citric acid alkyl polyglycol esters.

8. (New) The preparation as claimed in claim 7, wherein the content of surfactant (3) is greater than 1% by weight.

9. (New) The preparation as claimed in claim 7, wherein the content of surfactant (3) is greater than 1.5% by weight.

10. (New) The preparation as claimed in claim 7, wherein the weight ratio of alkyl ether sulfate to surfactant (3) is 10:0.5 to 10:5.

11. (New) The preparation as claimed in claim 7, wherein the weight ratio of alkyl ether sulfate to surfactant (3) is 10:1 to 10:3.

12. (New) The preparation as claimed in claim 7, wherein the weight ratio of alkyl ether sulfate to surfactant (3) is 10:1.8 to 10:2.2.

13. (New) The preparation as claimed in claim 7, further comprising Na cocoyl glutamate.

14. (New) The preparation as claimed in claim 7, wherein the surfactant (3) includes at least one salt of a citric acid alkyl polyglycol ester sulfosuccinate.

15. (New) The preparation as claimed in claim 7, wherein the surfactant (3) is at least one surfactant selected from the group consisting of PEG-7 glyceryl cocoate, disodium PEG-5 lauryl citrate sulfosuccinate and lauryl glucoside.

16. (New) A method of cleaning the body or hair, comprising applying to the body or hair a cosmetic or dermatological body cleaning preparation comprising a surfactant system of:

- (1) alkyl ether sulfate,
- (2) alkylamidopropylbetaine, and
- (3) at least one additional surfactant selected from the group consisting of alkyl polyglucosides, ethoxylated triglycerides and salts of citric acid alkyl polyglycol esters.

17. (New) The method as claimed in claim 16, wherein the content of surfactant (3) is greater than 1% by weight.

18. (New) The method as claimed in claim 16, wherein the content of surfactant (3) is greater than 1.5% by weight.

19. (New) The method as claimed in claim 16, wherein the weight ratio of alkyl ether sulfate to surfactant (3) is 10:0.5 to 10:5.

20. (New) The method as claimed in claim 16, wherein the weight ratio of alkyl ether sulfate to surfactant (3) is 10:1 to 10:3.

21. (New) The method as claimed in claim 16, wherein the weight ratio of alkyl ether sulfate to surfactant (3) is 10:1.8 to 10:2.2.

22. (New) The method as claimed in claim 16, further comprising Na cocoyl glutamate.

23. (New) The method as claimed in claim 16, wherein the surfactant (3) includes at least one salt of a citric acid alkyl polyglycol ester sulfosuccinate.

24. (New) The method as claimed in claim 16, wherein the surfactant (3) is at least one surfactant selected from the group consisting of PEG-7 glycceryl cocoate, disodium PEG-5 lauryl citrate sulfosuccinate and lauryl glucoside.
